Qti.ai can help manage your intellectual property rights by registering your work with the U.S. Copyright Office – a critical step if you decide to pursue litigation against infringing parties. You retain all rights to your work; the Copyright Office sends Certificates of Registration directly to your address.

Let us consistently monitor your brand across global ecommerce platforms. We'll identify probable intellectual property infringements, and initiate takedowns for you. You'll also have access to our robust user interface, where you can track the status of your infringements in real time.
